DEVELOPING LIFE SKILLS IN THE ENGLISH LANGUAGE CLASSROOM

What are life skills? Why are they important? How do we develop them in children while teaching English?

In the modern world the ability to memorize information and follow instructions is no longer valued as much as what we do with information or working well with groups of people very different from ourselves. Life skills are about developing thinking and learning skills, and social and emotional skills.

In this presentation we shall explore what exactly these life skills are and how can skills like leadership, collaboration and emotional skills can be incorporated with language learning. Examples from Super Minds and Think shall be used.

Olha Madylus, *Cambridge University Press author, teacher trainer, UK*

TIPS AND TRICKS IN PREPARING FOR YOUNG LEARNERS EXAMS

"I don't want to do this!" "I am not interested!" Are you familiar with these complaints when teaching young learners? I guess some will say yes. It's never been very easy to get the full attention from young learners when preparing them for exams. In this session, we will be focusing on some fun activities which students will enjoy, engage in and at the same time improve their English language skills. We will also be looking at how to utilize general classroom materials for exam preparation.
